IDRA

Sitting room

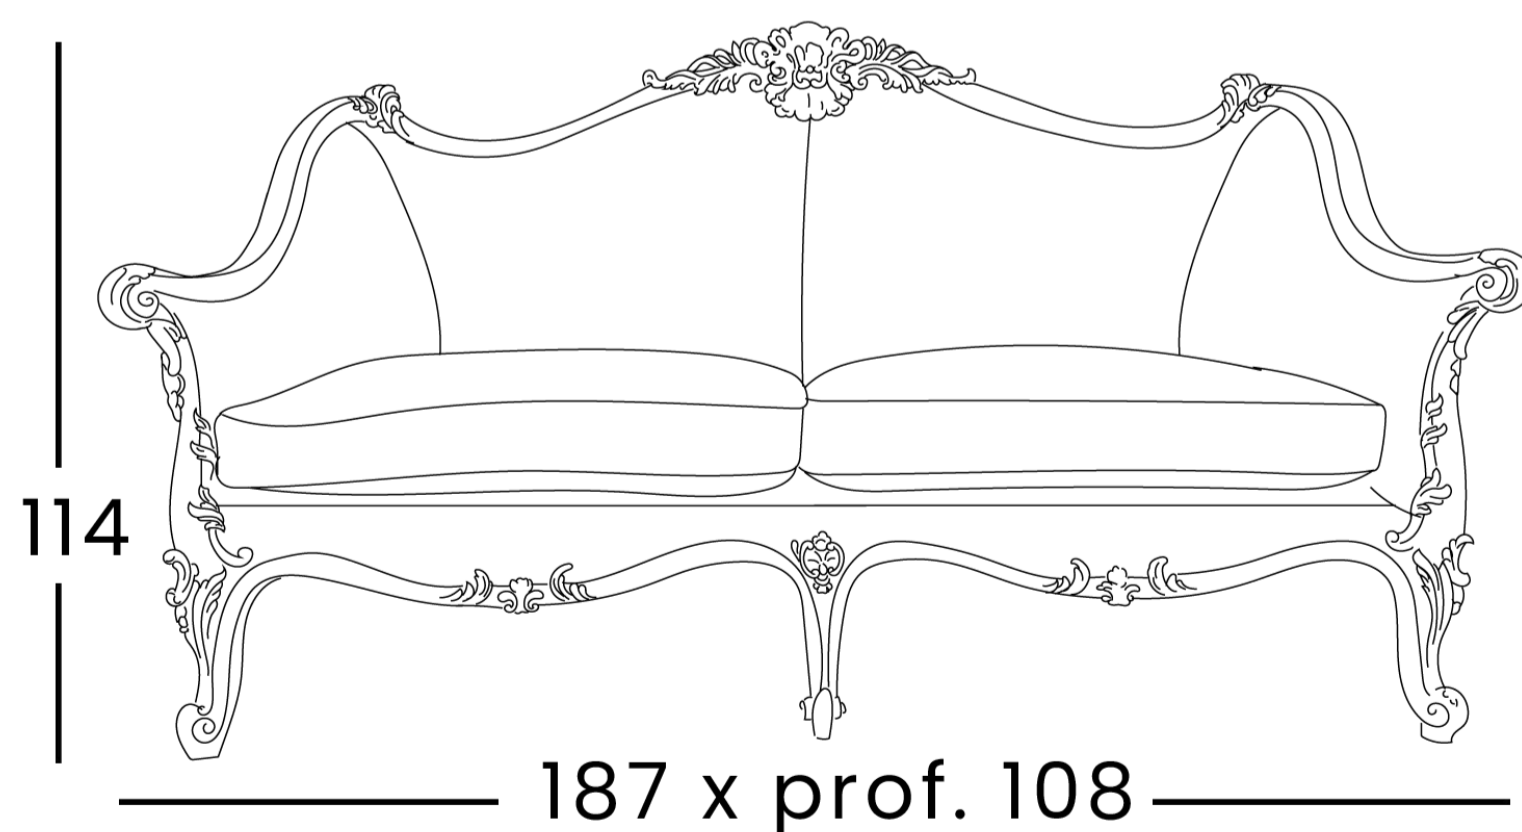

The Idra collection is one of the new collections designed and made with the Silik signature. It is an imposing set but, unlike the others created in Baroque and extroverted style, Idra has a different style almost more sober. Due to its very large and comfortable seats it stands out from the rest for having the friezes simpler and lighter.

Sofa

The sofas in the Idra collection, two and three-seater, are an example of upholstered furniture that, although stylish, is a nod to a more modern design. The refinement in the soft and sinuous shapes and the abundance of details makes these two items elegantly unique in their genre. The large and comfortable seats are a guarantee of comfort.

Armchair

Wide and elegant, Idra armchair is the link between lightness and care for the details. Swirls and small details perfectly carved are the signing of the highest Italian craftsmanship. The huge dimensions of this collection make Idra the main element in the place in which it is located.

Coffee tables

Idra table set is the example of endless sophistication. 51cm height they are perfect in every edge of the house, and matched with the upholstered items of the same collection they create an elegant atmosphere. Both square and rectangular tables can be purchased with decorated wooden top or with marble top.
