

LARISSA

Bedroom

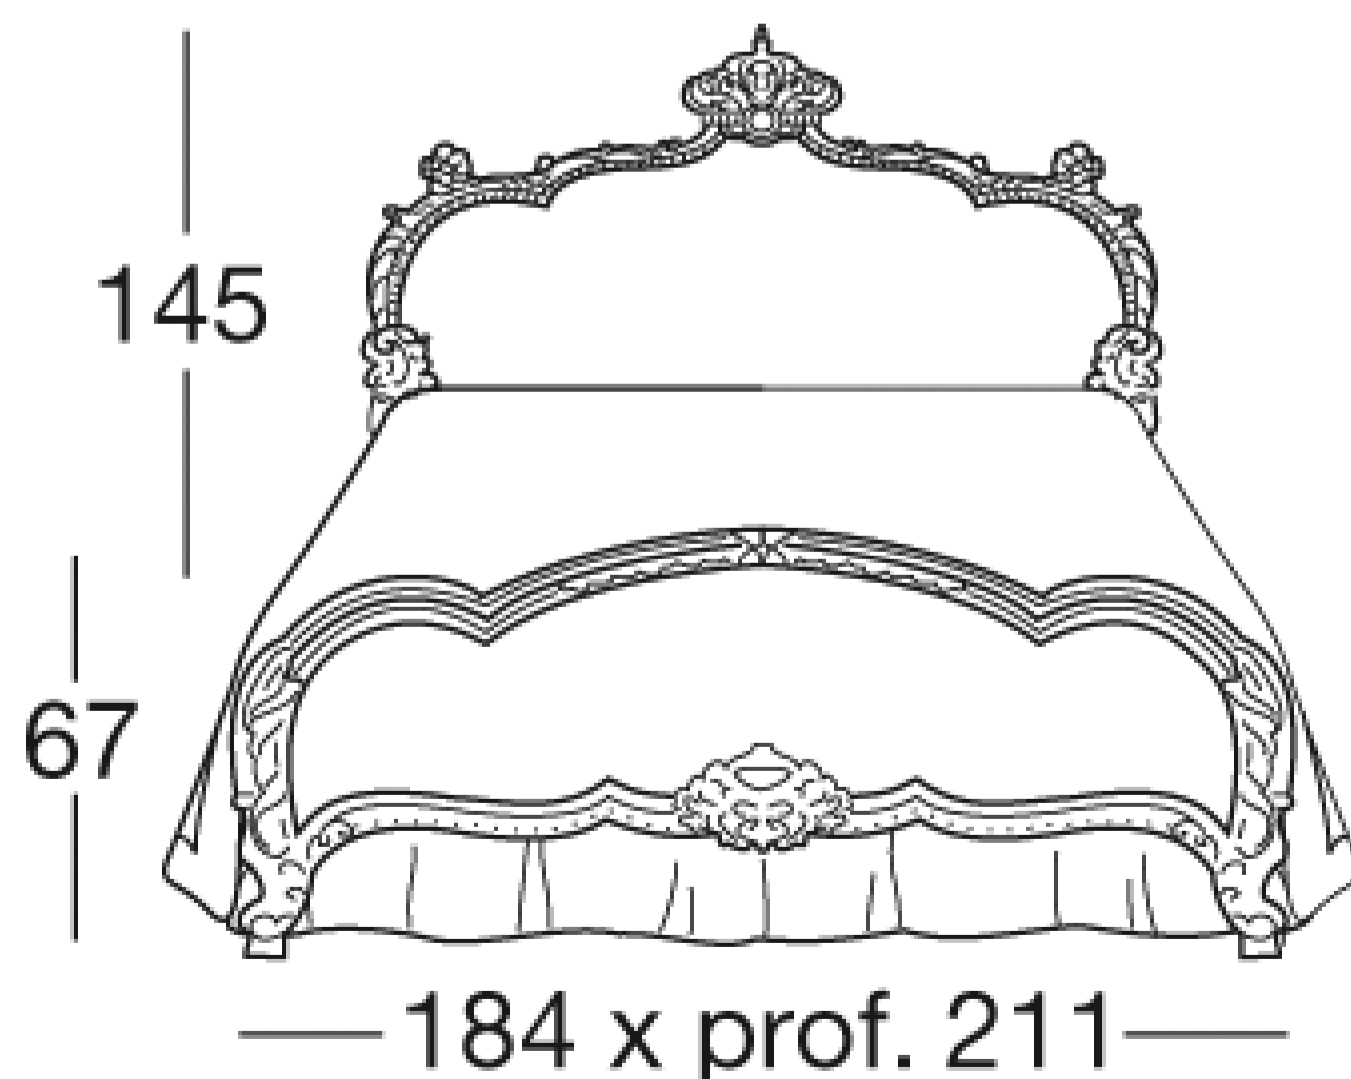

The Larissa bedroom is elegant, simple yet perfect. As beautiful as a nymph, from which it takes its name, Larissa presents geometric garlands and a crown as headboard top. The other items are fine, elegant, and somewhat reminiscent of the Louis XVI style, although with more worked hints. The romance of this set is ideal to furnish a refined room.

Double bed

The Larissa collection is certainly the one with the most marked royal charm, its incomparable elegance is highlighted by the crown-shaped detail on the top of the bed. Larissa has three models that differ in the combination of headboard, footboard and bed frame. All three choices are refined and studied in detail.

Night table

The night table with three drawers of the Larissa collection is rather sober, linear, and elegant. It recalls somehow Louis XVI style, less worked than the Baroque but still of great aesthetic impact. Only the feet exceptionally recall the less austere style thanks to a soft and detailed curve.
