**Bedroom**

**The Niobe bedroom is majestic, mythical, and somehow exaggerated. Its opulence is unique. The grandeur is noted at every volute and on the countless friezes studied one after the other by skilled craftsmen. The grandeur of each item in this collection makes this set absolutely exceptional and out of the ordinary.**

**Beds**

The Niobe bedroom is certainly majestic and full of details. The three bed models proposed for this set are almost the same in terms of friezes and carving, the only difference is in sizes. In this collection there is a very particular model: a double bed with joined night tables creating an extremely unique item.

**Night table**

For the Niobe collection has been designed a night table with three drawers which can be placed side by side or incorporated into the bed. The structure immediately evokes an idea of luxury and grandeur as well as refinement in creative design. The most fascinating details are, without a doubt, the small friezes shaped like daisies placed on the top drawer.

Wardrobe

The two spacious wardrobes of the Niobe collection are very large and important. Article 760/D3 is a wardrobe with three doors almost two and a half meters high, while article 760/S4 has four doors in total, two lateral decorated doors and two mirrors in the middle. Handmade decorations can be, in these cases, a real plus.

**Chest of drawers**

The chest of four drawers of the Niobe creates a luxurious and solemn atmosphere in the room. Being 146 cm long, 60 cm deep and 90 cm high its design and measures are easy adaptable to any type of architecture and design, even if it is produced without too many friezes or carvings, equally iconic and recognizable.
